

Got A Furlough Notice?

Let's Fight These Furloughs Together. Attend Our Appeal Workshop!

There are things that management won't tell you when you are furloughed because it makes their job harder. It's on you to make them justify their bad decisions. After all, you have been suffering for three years with pay freezes and had other painful cuts that you have been made the scapegoat of.

APPEAL IS YOUR ONLY CHANCE TO STOP THE FURLOUGHS.

What you will learn at the workshop:

- What these illegal furloughs mean to you in detail
- What your rights are
- How to respond to the furlough notice
- How to request the official time to respond to the furlough notice
- How to ask for documentation; what to request
- How to file an appeal with the Merit Systems Protection Board (MSPB). We will help you fill out the form.
- How to join a class action MSPB appeal

Don't let furloughs happen to you without putting up a fight.
